ClickToDesktop is an entirely new way to manage your windows. Each time you launch the app, all open windows will be instantly hidden. With a single click, you can bring everything back. Even from the Windows taskbar. All windows and folders are hidden on the taskbar, as well as the whole desktop. The app works for windows both opened on the system and through Windows Explorer. App can be moved to the system tray and then launched at any time. The app works for windows regardless of their state: maximized, normal, hidden, minimized, closed, or in any other way. This feature may come as a first for users coming from Windows XP or earlier. You do not need to shut down your computer in order to use this app. The app does not need any user rights, in order to work on the Windows 2000, Windows XP, Windows 7, and Windows 8. There are no adverts, popups or annoying installations. ClickToDesktop Features: Innovative, new way to manage your open windows. One simple click hides everything open on your desktop. Works with all windows: hidden or maximized. Works with Windows Explorer (File Explorer). Works with all Windows versions: 2000, XP, Vista, 7 and 8. The app works on the Windows taskbar and on the Windows desktop itself. Works with all Windows editions: Professional, Enterprise, Starter, Home Premium, Professional, Enterprise, Basic, and Home. Works with Windows 8 and 8.1, as well as Windows 7 and Windows 10 (legacy OS). App can be moved to the system tray, where it will remain hidden, and will be available at any time. The app does not need any user rights, in order to work on the Windows 2000, Windows XP, Windows 7, and Windows 8. There are no adverts, popups or annoying installations. The app is free of viruses, malware and other undesirable software.
