Finnegans Wake ( ), by James Joyce one of the better-known Celtic.. Der Zukunft.In the.. Arabic e-books in the Arabic language.. This three-volume set compiles a wealth of material that includes. Der Zukunft.In the..Arachidonic acid metabolism in the thymus of patients with myasthenia gravis. Altered arachidonic acid (AA) metabolism has been implicated in the development of myasthenia gravis (MG) and in the pathogenesis of the neuromuscular junction. In the present study, the activities of cyclooxygenases (COX), the lipoxygenases and the 12/15-lipoxygenase were measured in thymus tissue from 13 myasthenic patients and 10 controls. The thymic content of prostaglandin E2 and leukotriene B4 (LTB4) was also determined. Thymic AA metabolism was altered in MG patients with respect to control subjects. Prostaglandin E2 synthesis was significantly reduced in MG patients, whereas thymic hydroperoxide-metabolizing enzyme activities were increased (i.e. cytochrome b5 reductase and microsomal epoxide hydrolase). In thymus homogenates, thromboxane B2 production was increased, whereas thromboxane synthase activity was unchanged in MG. These results suggest that the abnormal thymic AA metabolism observed in MG patients is probably associated with increased arachidonic acid metabolites production and reduced enzymatic conversion. These results also support a potential role for thromboxane A2 and LTB4 as a mediator of MG.Monday, October 3, 2010 Ok...first of all...This is my NEW Blog. I had a space on MySpace with about 70 followers and then the lady behind that space got a
